2020 Haro Station Wine Experience postponed to 2021

- **The pandemic forces a move to 19 June 2021**
- **Tickets already purchased for this year will be valid for the 2021 event.**

Haro, April 2020—The Station District Association has decided to postpone the Haro Station Wine Experience, which was to be held on 20 June 2020, due to the pandemic caused by COVID-19. The new date for the celebration of this great wine and food festival, a world reference in wine tourism, is 19 June 2021.

The postponement is taken as a responsible, preventive measure to ensure that this great event maintains its true essence: the pleasure of sharing and toasting together with the best wines of La Rioja. Therefore, the organization has decided to set a new date for the Haro Station Wine Experience and ensure its continuity for all wine and food lovers who had planned to attend the event this year.

Tickets purchased for the 2020 event are valid for the 2021 event and do not need to be replaced. In addition, a box of six of the twelve wines that would have been tasted in the 20 June edition this year will be offered for purchase (one from each winery), so attendants can hold a virtual alternative Wine Experience to coincide with the date of the postponed tasting. Part of the proceeds of the case will be used in solidarity efforts to alleviate the effects of the pandemic in sectors such as the on-trade industry. However, anyone who wishes to do so may request a refund of the early bird price.

The 2021 edition will have the same philosophy and characteristics as the celebration planned for 2020. The six participating wineries (Bodegas RODA, Bodegas Bilbainas Viña Pomal, CVNE, Bodegas Muga, La Rioja Alta, S.A. and Gómez Cruzado) will each be offering two wines, as well as various dishes and a dessert prepared by renowned chefs.
